

Program choices

Grade levels	On- and off-site	Curriculum sheet link	Descriptions
3-5	Ways of the Wolf	Ways of the Wolf Curriculum 3.5	What does it take to survive in the wild? Learn how wolves survive their habitat by understanding the four main components of any creature's habitat and how wolves use their sense to help them. Through hands-on activities, see if you could survive the challenges of wolves in the wild.
3-5	Wolf Café	Wolf Café Curriculum 3.5	What's on the menu at the wolf café? Study how the roles of predator/prey species are determined by their adaptations and survival strategy while examining skulls, antlers and horns.
6-8	Vanishing Creatures	Vanishing Creatures Curriculum 6.8	Find out what makes an animal more susceptible to becoming endangered or extinct. Work together to determine why an animal might become endangered. Learn what you can do to help endangered species make a comeback.
6-8	Wolves in the Ecosystem	Wolves in the Ecosystem Curriculum 6.8	Learn about the wolf's role in its ecosystem as an apex predator.
6-8,9-12+, Adults	World of Wolves		A brief glimpse at the behavior, physical characteristics, and social structure that make the wolf such a unique animal.
9-12+, Adults	Wolves of Washington		After an almost 70 year absence, wolves have returned to Washington. Where are they and how are they surviving? How are they affecting the people who live in Washington? Learn all this and more during this Washington focused program.
Adults	Wolf Recovery		What happened to the wolf and its habitat? What is Wolf Haven doing to help the wolf along in its recovery? Come learn about the challenges and successes of recovery plans for the gray wolf, red wolf, and Mexican gray wolf.
	On-site only		
6-8, 9-12+	Animal Care at Wolf Haven		Take a look at how the wolves of Wolf Haven are cared for. Where do the Wolf Haven wolves come from? Learn about our philosophy regarding feeding and daily care. Presentation includes the challenges of managing a wild animal in captivity and the handling of veterinary emergencies.
3-5, 6-8, 9-12+	Prairie program		Discover, in-depth, the wonders of our endangered Mima mound prairie
	Off-site only		
K-2	Den Digs	Den Digs Curriculum k.2	All animals have a habitat. Through hands-on activities, learn about the four components of wolf habitat: food, water, shelter, and natural environment. See if you could survive the challenges of wolves in the wild.
K-2	Wolf Sense	Wolf Sense Curriculum k.2	What does a wolf see, smell, hear, taste, and feel? Learn about a wolf's senses and how they are both similar and different from your own. Lots of fun hands-on activities.
