

Strategic Goals 2017-2021

Sanctuary Goal

Strive to provide the highest quality care for our resident animals. Guided by sound ethics and best practices, Wolf Haven International endeavors to provide a setting as natural as possible that allows each animal to flourish in their own way and lead a life of dignity. Our ultimate goal is to put an end to the displacement and exploitation of wolves and wolfdogs.

Conservation Goal

Develop and implement conservation stewardship programs to protect, recover and sustain wolves and their habitat in North America. Restore and preserve native prairie habitat and related species on Wolf Haven International property.

Leadership and Education Goal

Provide leadership to enable a broad spectrum of constituents to understand the complex role wolves play in ecosystem health and longevity. Inspire actions to foster empathy and ensure the well-being of wolves, while also maintaining sensitivity to the needs and concerns of those who are affected by wolves.

Facilities and Property Goal

Develop a comprehensive and ecologically sound Facilities Master Plan which will include Sanctuary upgrades, a LEED certified Education and Visitors Center, and a completed and maintained Prairie Conservation Easement.

Resource Goal

Develop a financial plan that places highest priority on the long-term care of sanctuary animals while also addressing long-term goals of the organization.
